Ambulance Billing Analysis

April-March 2020-2024

About the Data

- Years compared – 2020-2024.
- Months compared – April-March – Now that we have been using LifeQuest for nearly two years, that data is not a strict comparison to how we did under the old billing company.
- I also computed the three-year average.
- I looked at number of calls, amount billed, amount collected, percent collected, amount billed per call, and amount collected per call.
- I've added to the aging schedule the percent of dollars owed that are greater than 120 days.
- There is also a slide showing where the calls originate from.
- Lastly, there are a couple of slides showing write-offs and collections.
